Sizani In-house Manufacture Products

Below is our feeding programmes product range – September 2015

Melsi Milk Powder

A blend of milk solids (60%), glucose syrup and vegetable solids, combined to create a delicious product that tasted exactly like low fat fresh milk, with none of the “powder” after-taste of other milk powders. Melsi Milk Powder stretches up to 25% further than some other milk powders because 1kg makes 10 litres of milk. Melsi Milk Powder is also fantastic for baking, and cooking. Melsi contains ImmunoT140, a range of Immune boosting vitamins.

Why use vegetable solids?

The Vegetable fat stabilises the product which creates a product better suited to unsavoury storage conditions. By replacing some milk solids, it thereby lowers the cholesterol and lactose content that is present in milk. The product also becomes more soluble, and Melsi Milk Powder can be mixed in hot or cold water.

Melsi Soya Mince

A delicious soya based meat replacement meal. Melsi Soya Mince is used either as a meat extender (added to mince-meat) or as a meal served with rice, maize meal or potatoes. It is easy to cook, with a very low cost. It has a good protein level and is full of vitamins and minerals. The three flavours are Beef and Vegetable, Chicken and Vegetables and Curry Chicken and Vegetables. A retail sachet (500 gm) is also available.

Melsi Vita-Drink Powder

A vitaminised cooldrink powder that dissolved easily in cold water. The product comes in various flavours – Raspberry, Orange and pineapple. This is a popular sugar based cooldrink powder and does not contain any artificial sweeteners.

Melsi StrongMeal

Melsi StrongMeal Is a high energy, high carbohydrate and high protein power food that is a combination of samp(maize), sugar beans, lentils, split peas and dry veg in a fortified and flavoured gravy. This is a tasty and nutritious “one pot” meal.

Melsi Instant Custard Powder

A one of a kind, revolutionary product that is gaining huge popularity in the marketplace. It is a custard powder that just needs to be added to boiling water (no cooking necessary). No need to add milk or sugar... it is perfect just the way it is. Melsi Instant Custard resembles the creaminess, texture and flavour of UHT (long-life) custards, but the cost per litre is substantially less. The custard can be used as a pouring custard or used in baking, tarts, or even to eat on its own. High in vitamins and minerals.

Melsi Vita-Jelly Powder

An easy to prepare jelly powder that makes a great tasting jelly, low in cost and containing ImmunoT140 vitamins. It comes in three flavours – Raspberry, Orange and Pineapple.

Melsi Soup Powder

Melsi Soup Powder is an obvious choice for any catering facility. The soup is highly nutritious and delicious and can be either used a soup base to which you can add fresh vegetables and /or meat, or even use it on its own. It can also be used as a gravy powder for other dishes. It comes in two flavours – Beef & Veg, and Chicken & Veg.

Melsi Immuno-Meal

Immuno-Meal is a “super-nutritious” instant maize and soya based cereal. It has a wonderful specification of vitamins and minerals, it is easy to prepare (just add water), and tastes great. Immuno-Meal is used all over Southern Africa in Clinics, Institutions, schools and mines where extra nutritional requirements are prevalent. It contains milk and sugar and is pre-cooked, so it mixes easily with cold or warm water. It comes in one flavour – original. A “tube feeding” version is also available.

Melsi Vita-Shake Powder

Melsi Vita-Shake Powder is “one of a kind” nutritional milk shake in powder form. Just add to cold water for a delicious milk shake full of vitamins. Most flavoured milk powders need to be added towell..... milk, but Melsi Vita-Shake Powder is easy to prepare, **only needs water** and is a great treat for anyone that consumes it, while providing real nutritional benefit at the same time. It comes in Strawberry, Vanilla and Chocolate.

Melsi Hot-Chocolate Powder

A hot chocolate powder that contains milk. Just add to hot water for a delicious warm winter drink. Sold at a substantially lower cost to commercial hot chocolate powders, Melsi Hot Chocolate Powder is a must for your centre. Great for baking too.

Melsi Quick Cook Oats

Wholesome rolled oats, that’s quick to cook and delicious to eat. Oats is a good source of roughage which is essential for a good digestive system

Sizani Samp & Bean Mix

A combination of samp and red speckled sugar beans provides a carbohydrate and protein combo dish, packed full of energy. The product contains a higher portion of sugar beans to samp than other similar products, to provide maximum protein content. Just add Melsi soup/Gravy for a balanced and deliciously filling meal.

Sizani Rice and Lentil Mix

A combination of white long grain rice and brown lentils provides a good carbohydrate and protein combo. Just add Melsi Soya Mince or Melsi soup/Gravy for a delicious meal.
